SECURING YOUR DIGITAL FUTURE

About Us

Pioneering Digital Resilience

Securing the Future of Digital Enterprise

Shell Infosec is more than a service provider; we are your strategic partner in digital security and presence. In an era where threats evolve daily, we deliver **offensive security expertise** coupled with **defensive engineering** to create robust, unbreakable digital environments.

From safeguarding critical infrastructure for **Enterprise** partners to building scalable, secure-by-design platforms for agile startups, our mission is clear: to empower businesses to thrive without fear of compromise.

EXPERT TEAM MEMBERS

Our Expertise

Cybersecurity Audit

Comprehensive security assessments including VAPT, compliance audits (ISO/GDPR), and risk analysis.

- Endpoint Security Audits
- Network Security Audits
- Penetration Testing
- Vulnerability Assessment

Web Development

Secure, high-performance web applications built with modern frameworks.

- WordPress Development
- Node.js Development
- Custom Applications
- E-Commerce Platforms

Cloud Infrastructure

Enterprise-grade hosting, orchestration, and disaster recovery planning.

- Managed IAAS
- Public / Private / Hybrid Cloud
- AWS / Azure / GCP / OCI
- Migration Services

AI & Automation

Machine learning for threat detection, process automation and platform analytics.

- Live Threat Protection
- Agentic Analytics
- AI Security Operations
- AI Threat Detection

Proprietary Technologies

NexusEye

RECONNAISSANCE PLATFORM

Advanced network intelligence and domain reconnaissance tool. Features automated enumeration and real-time asset discovery.

Auditor Suite

COMPLIANCE & PERFORMANCE

Automated auditing framework for Web Vitals, SEO, and Security Compliance. Generates detailed actionable reports.

AI Backdoor Detector

THREAT DEFENSE

Machine learning model trained to identify obfuscated malicious code, backdoors, and zero-day vulnerabilities in source code.

Vytalitics

UNIFIED ANALYTICS FOR MODERN ENTERPRISES

Connect 50+ tools, unlock AI insights, and make data-driven decisions faster. One dashboard to rule them all.
